

Montana High School Association

MOA Mechanics Training Information

Thursday, September 30, 2010

Beginning with the 2012-13 school year, the MOA Regional Directors have discontinued the required mechanics clinics (train the trainer) that have been held at the MCA convention in Great Falls every August.

The reason for the discontinuation is the intensive training shared with pool leaders and representatives over the past several years has now become repetitive except for the few new mechanics changes every other year.

A different mechanics training requirement (hopefully on online offering) is being explored.

For now the MCA Associate Member dues collected will help fund other MOA initiatives and programs. Your card will also grant you admission to regular season athletic contests of participating high schools and colleges.

If you are still interested in joining the MCA as an Associate Member please contact Amy Bartels in the MOA office at 406-442-6010 or abartels@mhsa.org.
